

## Why book with us

carhiremarket.com is an independent price comparison website where you can choose a car hire out of over 130 local and international suppliers from 90.000 stations in 178 countries and find your ideal car – always with the very lowest prices and availability!

Looking for the perfect car via carhiremarket.com is done according to your personal tastes and preferences specified by the original offer, and then a filter by price, vehicle, accessories, doors, drivers and car rental companies. There is also an option to view which services the individual offers include. With this transparency, you can be sure that you will not be surprised by any hidden costs!

In addition, we negotiate exclusive rates with the various car rental companies, and offer the option of a comprehensive insurance package, which allows you to enjoy full all-round protection during your rental.

Another advantage of carhiremarket.com is that the booking of the selected hire car is conveniently done right on the carhiremarket.com page. For all questions about car hire and reservations, our qualified and friendly call center team is always here to assist you and available weekdays 9am-7pm and Saturdays 10am-6pm.

With carhiremarket.com, your price comparison website for car hire, you can save up to 65% and more on car rental prices compared to recommended retail price!

### How is that possible?

If you set identical conditions for a car hire search on our website: same vehicle category, rental period and destination, you can find up to 65% difference from car suppliers, and in some exceptional cases even more. Try it yourself - you will be amazed by the great savings waiting for you!

Find below examples of our savings potential (period 01.11 - 10.11.2010.)
